The following questions are used to provide faculty an indication of use of/effective use of learning practices that are typically associated with higher order learning. The first table indicates the percentage of students rating the practice as effective or very effective. The second table indicates the percentage of students that indicated that the practice was not used in the course they were evaluating.

The following questions are used to provide faculty an indication of use of/effective use of learning practices that are typically associated with higher order learning. The first table indicates the percentage of students rating the practice as effective or very effective. The second table indicates the percentage of students that indicated that the practice was not used in the course they were evaluating.

The following questions are used to provide faculty an indication of use of/effective use of learning practices that are typically associated with higher order learning. The first table indicates the percentage of students rating the practice as effective or very effective. The second table indicates the percentage of students that indicated that the practice was not used in the course they were evaluating.

The following questions are used to provide faculty an indication of use of/effective use of learning practices that are typically associated with higher order learning. The first table indicates the percentage of students rating the practice as effective or very effective. The second table indicates the percentage of students that indicated that the practice was not used in the course they were evaluating.

Question/Scale Legend	Institutional Percentage Effective or Very Effective	Undergraduate Percentage Used Effectively or Very Effectively	Graduate Percentage Used Effectively or Very Effectively	PRO Percentage Used Effectively or Very Effectively	LAE Percentage Used Effectively or Very Effectively	BBS Percentage Used Effectively or Very Effectively	Lecture Percentage Used Effectively or Very Effectively	Hybrid Percentage Used Effectively or Very Effectively	Online Percentage Used Effectively or Very Effectively

The following questions are used to provide faculty an indication of use of/effective use of learning practices that are typically associated with higher order learning. The first table indicates the percentage of students rating the practice as effective or very effective. The second table indicates the percentage of students that indicated that the practice was not used in the course they were evaluating.

The following questions are used to provide faculty an indication of use of/effective use of learning practices that are typically associated with higher order learning. The first table indicates the percentage of students rating the practice as effective or very effective. The second table indicates the percentage of students that indicated that the practice was not used in the course they were evaluating.

<1 hour	13%	16%	2%	10%	17%	15%	16%	4%	2%

The following questions are used to provide faculty an indication of use of/effective use of learning practices that are typically associated with higher order learning. The first table indicates the percentage of students rating the practice as effective or very effective. The second table indicates the percentage of students that indicated that the practice was not used in the course they were evaluating.

Question/Scale Legend	Institutional Percentage Effective or Very Effective	Undergraduate Percentage Used Effectively or Very Effectively	Graduate Percentage Used Effectively or Very Effectively	PRO Percentage Used Effectively or Very Effectively	LAE Percentage Used Effectively or Very Effectively	BBS Percentage Used Effectively or Very Effectively	Lecture Percentage Used Effectively or Very Effectively	Hybrid Percentage Used Effectively or Very Effectively	Online Percentage Used Effectively or Very Effectively
Use of technology in helping me to learn course content	71.7%	70.6%	77.5%	78.0%	69.7%	63.0%	67.2%	84.9%	82.2%
Use of written research assignments in helping me to learn course content	64.3%	61.1%	81.6%	62.5%	63.4%	68.7%	60.0%	82.3%	75.1%
Use of individual projects in helping me to learn course content	67.9%	65.3%	81.9%	68.0%	70.6%	64.2%	64.4%	83.1%	74.6%
Use of team projects in helping me to learn course content	46.8%	47.5%	42.3%	50.2%	46.1%	41.2%	47.3%	56.5%	33.7%
Use of case studies in helping me to learn course content	48.5%	47.4%	54.7%	51.9%	41.1%	51.7%	46.1%	57.1%	53.7%
Use of journals in helping me to learn course content	41.6%	40.1%	49.9%	46.7%	38.8%	35.8%	38.7%	63.3%	35.3%
Use of role play in helping me to learn course content	39.4%	40.4%	34.0%	41.2%	38.6%	36.8%	41.0%	41.9%	29.8%
