

Gateway Church is a church family of about 175 consistent members and a student ministry of around 25 students. We are located in Ruidoso, NM, which is a small mountain town with a population of around 7,000.

At Gateway we recently went through some big transitions where we no longer identify as a “church of Christ”, we have incorporated instruments in our worship on Sunday morning (we have some a capella songs and some instrumental), we have included women more in our corporate worship, and we recently hired a worship minister full-time.

Here are some quick facts about Gateway and Ruidoso:

- Tourists are frequent and familiar to Ruidoso and Gateway so it can feel a lot bigger than what is listed above.
- Our youth group and church is diverse in race, class, and personality.
- We share a building with Christian Services where people can come get food, clothes, help with bills, and help with lodging
- Ruidoso’s elevation is 6,920ft; we have a ski resort 30 minutes outside of town
- Our average summer temperatures are 79*/49*
- It is quite common to see the deer, elk, and wild horses all around the village
- We are home to over a hundred miles of trail for hiking, biking, and running
- Fly fishing is great around us
- If you like the outdoors and don’t want to see triple digit heat, Gateway is the place for you this summer!
