Choose one of the following prompts and compose a 600-750 word response.

- A. Discuss a time when your academic work -- an independent intellectual event or pursuit such as reading a book -- led you to a significant moment when you felt like you had made a genuine discovery. What did this experience teach you about yourself, and what did you learn about the nature of discovery?
- B. Discuss a national issue that relates to your intellectual and/or spiritual concerns. What are the challenges that the issue raises, problems that must be addressed, and likely outcomes that you perceive occurring in the future? Why is this issue important to you, and why should it be important to others?
